Water Main Replacement Group Job 3008: E-Newsletter #22 | Jan. 18, 2010

This is the 22nd e-newsletter for Water Main Replacement Group Job 3008. The e-newsletter will be distributed bi-weekly for the remainder of the project to keep the community informed about construction progress. The next e-newsletter will be distributed the week of February 1, 2010.

Project Description

The water main replacement work for Group Job 3008 is well underway. Group Job 3008 consists of two sections - Group Job 532 and 533. Construction crews are replacing the existing cast-iron mains that are nearly 60-years old and are at the end of their service life.

The project will:

- replace 17,979 feet of 16" cast iron water mains
- improve service reliability
- minimize future water main breaks caused by aging pipes
- increase the size of existing pipes to better serve the area

Total project cost is \$5,777,000.
